Abstract

The article presents the dynamics of key macro indicators of the Russian economy by the end of 2021. The main achievements and failures of economic development are outlined. The prospects for the development of the national economy in 2022 are considered separately.

Keywords: *GDP, gold reserves, investments, capital outflow, inflation, exports and imports, foreign trade turnover, real monetary incomes of the population.*

The article was prepared with the financial support of the Russian Foundation for Basic Research (Project No.20-010-00544 A).
